

ION Desktop

Get the most out of your software

Businesses often struggle with different software and technologies that weren't designed to work together. Think of all the wasted time and effort that goes into navigating between applications and manually re-entering data into multiple programs.

Stop wasting countless hours. ION Desktop delivers a framework that houses any software, running on any technology. They all connect in one place so users can easily and quickly access the information they need.

Collaborate seamlessly

- Access any application from a single interface.
- No interruption to your workflow.
- Functionality at your fingertips.

Simplify the user experience

- Automate repetitive tasks.
- Enjoy a consistent user experience.
- No need to adjust to the nuances of individual applications.

Integrate quickly

- Fully integrated in just a few days.
- Easily deploy and upgrade all your applications.
- Develop your own applications with our User Interface Toolkit.

Manage your workspace

- Create multi-application layouts.
- Enjoy features like resize, snap-and-dock, and tabbing.
- No coding necessary.

ION Desktop integrates

Outlook

Fidessa

ION FX

OneNote

Fixed Income

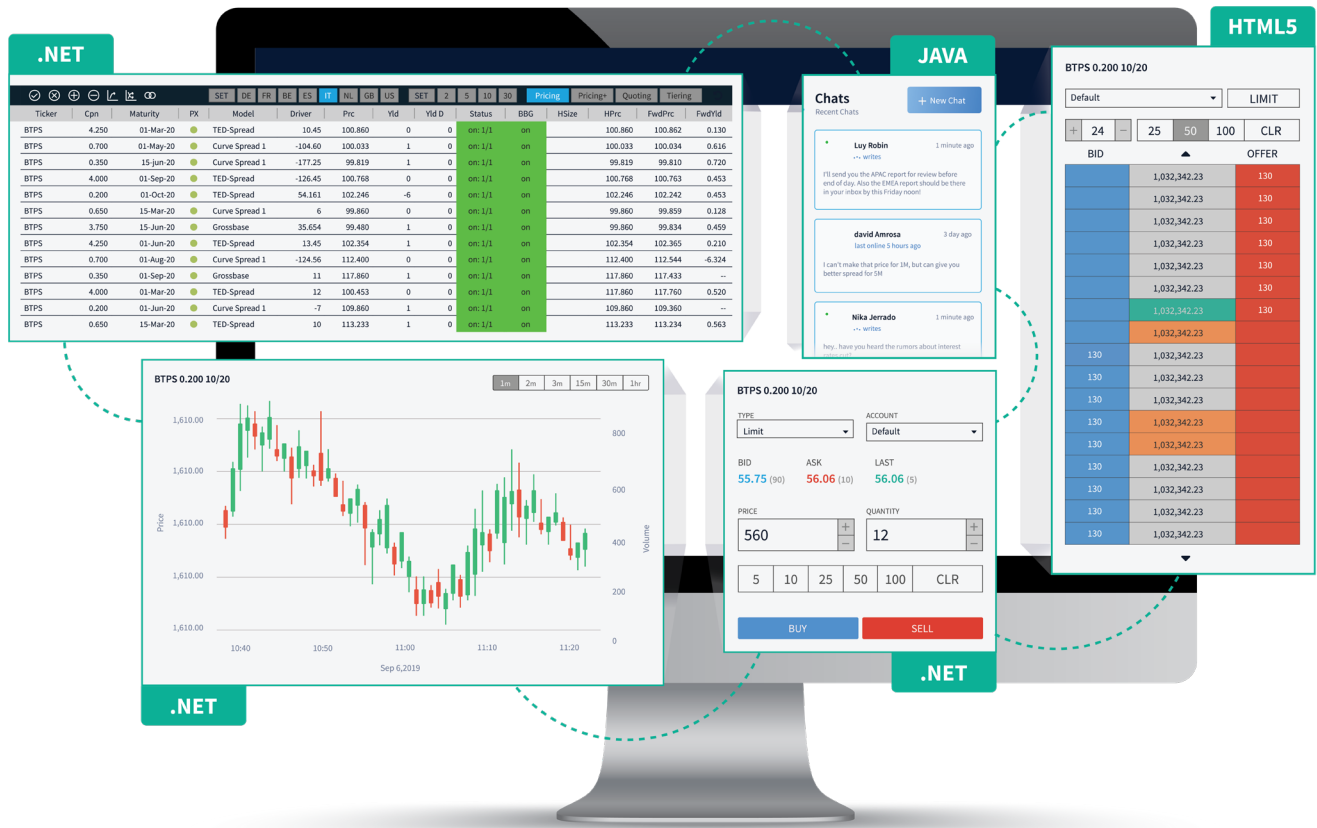

Anvil

LatentZero

We are continuously adding more applications and functionality.

ION Desktop

Automation

Simplified workflows enable you to spend more time executing.

One-click deployment allows applications to run automatically at start-up.

Eliminate repetitive tasks, reducing the chance for errors.

Innovation

Interoperate new, legacy, or third-party applications.

Run multiple applications in the same workspace.

Standardize the user experience across different applications.

Collaboration

Open-source code provides a closer relationship with our global enterprise user base.

Interoperability across applications facilitates content sharing.

A standard that enables unrelated applications to communicate seamlessly.

ION Desktop offers a new way to work. Enjoy connectivity between your software, apps, and data, simplifying workflows and boosting productivity.
