Spark**

Back-office technology that supports your business growth

As a business leader for your firm, you want to grow the business profitably, while reducing the total cost of ownership (TCO).

XTP Spark is an out-of-the-box, all-in-one automated workflow solution that removes constraints on your business growth by:

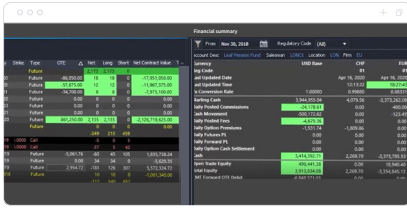

- Providing everything your back-office team needs to work efficiently.
- Reducing TCO, enabling profitable expansion.
- Provides ready access to advanced analytics for client profiling.

XTP Spark is an ideal back-office solution for banks and brokers, commodity trading firms, and niche clearers who require simple, fast, efficient, and accurate functionality that satisfies all regulatory and exchange requirements.

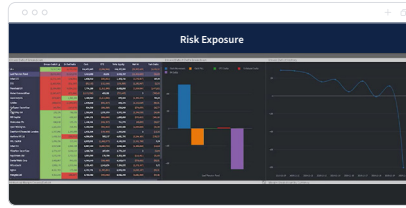

Transforming complexity into simplicity, XTP Spark revolutionizes your back-office function to unlock sustainable growth:

- Streamlined and accelerated back-office workflows featuring automating processes within a robust control framework, eliminating manual steps.
- Capacity to process large trade volumes at high STP rates, helping you achieve your business growth goals.
- Instant visibility of client activity.

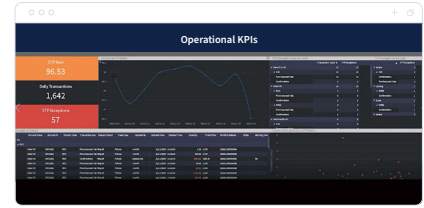

XTP Spark enables your back-office team through:

Real-time clearing, allocations, settlement and reporting

Instand visibility of client activity and exposure

Smart trade processing analytics

Quick to implement, ready to use, and reliable, XTP Spark runs continuously in real time, 24 hours a day with no downtime. And it can be readily connected to your existing systems using our flexible integration tools.

ION's partnership approach, built on continuous innovation and collaboration, ensures the platform will keep pace with changing demands as your business grows and evolves. Our focus on improving efficiency and operational effectiveness helps you and your business to succeed.

Address the needs of other stakeholders across your organization

For technology leads:

- Integrates easily into your tech stack and architecture.
- Uses robust, proven, and fully supported methodology that minimizes additional resource requirements on your side.
- Follows a predictable step-by-step installation timeline.

For operations leads:

- Streamlines and automates workflows to optimize business processes and improve customer service.
- Installs quickly, and is easy to understand and use.
- Enables easy extraction and manipulation of data to create detailed reports quickly.
- Unlocking potential to handle more clients without needing additional headcount.

⊕ Everything your back-office team needs to work efficiently and achieving business growth goals by scaling profitability and reducing TCO.
